emmanuelroodly@hotmail.com · **LinkedIn Profile** · **Github**

Experienced Developer with a demonstrated history of working in organization management industry, sales companies, insurance companies and more. Skilled in PHP, Java, Android Development, XML, SQL etc. Strong engineering professional graduated from Ecole Supérieure d'Infotronique d'Haiti.

EXPERIENCE

AUGUST 2018 – PRESENT
SOFTWARE ENGINEER, WYZDEV S.A

I participate in the design and development of different computer systems aimed at improving the quality of service of our customers.
The technologies I use the most are Android development with Java or kotlin and web application development using Laravel for the backend and the APIs and VueJS for the frontend.
I am responsible for the development and maintenance of computer system for companies such as Epid'or, Kay Dupuy, V&F Materiaux, Kay Mr Chacha, Idgie's, etc. which benefit from an evolving sales system and I design management systems for other companies like Internationale Assurance S.A, Caribbean SuperMarket, Sunrise Airways, etc.

JULY 2018 – NOVEMBER 2018
SOFTWARE DEVELOPER, SIMEN S.A

I was part of a team responsible for developing a management application to manage the investments and dividends of the various partners of SIMEN S.A.

JANUARY 2018 – APRIL 2018
ANDROID & WEB DEVELOPMENT TEACHING ASSISTANT, VIVA RIO

I support 30 participants in delivering lectures on Android and web development fundamentals.

SEPTEMBER 2017 – AUGUST 2018
ANDROID DEVELOPER, A CONNECTED PLANET / IDB

I participated in the realization of the EDUQUAT Project consisting in digitizing the Haitian education program in order to facilitate the learning of young students. I led a team to the realization of several applications divided by subjects and grades. These applications are available on playstore and app store under license.

EDUCATION

JULY 2018
COMPUTER SCIENCE ENGINEER, ECOLE SUPERIEURE D'INFOTRONIQUE D'HAITI
Bachelor of Computer Science
